

## HOTweezers® Thermal Wire Strippers

Meisei's HOTweezers® represent the state-of-the-art in Thermal Wire Strippers and offer a highly advanced Thermal Wire Stripping System used in specialised Wire-Stripping applications where stripping wire with no defect to the conductor is critical, including Aerospace, Electronics, Marine, Medial and Military.

Series 4 Limited has 30+ years experience of this product, this being one of the first ranges of tools offered when our company was established. Our technicians are highly trained on this product and fully re-work this system to ensure it complies with all UK and European Safety Legislation. We can also offer repair and refurbishment on your current HOTweezer® items as well as guidance and advisability on suitability of these tools.

This range is available in both Standard & ESD Versions and will strip wire sizes 36-18 AWG and larger wires up to 6mm. Series 4 Limited are very proud to be the Official UK Distributor & CE Conformed Agent for Meisei HOTweezer® Thermal Wire Strippers within the UK.

The most unique feature of the HOTweezers® Wire Stripper is that the heater filaments are completely sealed in the stripping head. The head is fabricated from a high-strength, high-temperature alloy with very good oxidation and wear properties. With the M-10 Power Supply, the tip temperature can be adjusted from 300°F (149°C) to 1450°F (788°C). Other thermal strippers offer this feature but there's a difference.

**\*Quantity and loyalty discounts are now available subject to conditions. Please contact us for more information.**

### Technical Data:

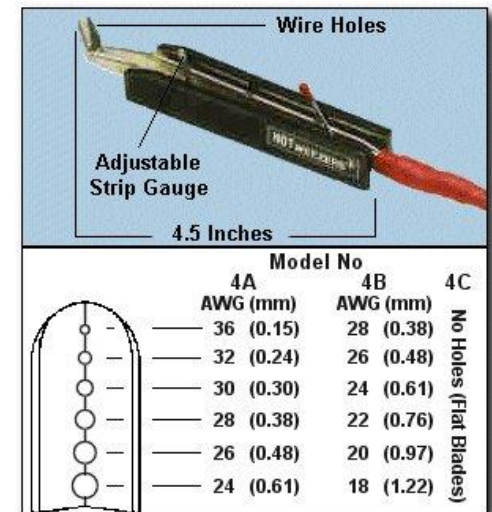

Voltage: 220V/50Hz, 110V/60Hz

Size: 3" x 4.5" x 4.5"

Weight: 2.25 Lbs

Power Consumption: 20 Watts Max

Warranty: 90 Days against defects in materials and workmanship

Series 4 Limited

Unit 9 Westwood Court, Calmore Industrial Estate, Brunel Road, Totton, Southampton, SO40 3WX
